Drill down into your past services to see costs, hours, and many important details that YOU can define and track

### Does your town suffer from any of the following?

- Endless error-prone paperwork.
- Inability to search your service record in seconds.
- Vague or inconsistent categorization of services.
- Antequated financial tracking?
- Service scheduling is reactive and not proactive.

### Why Use EquipmentTracker™?

- ✓ Easiest equipment management software to use.
- ✓ Reduce common service paperwork to one click.
- ✓ More secure than maintaining paper copies.
- ✓ Customizable service types to promote one-click entry.
- ✓ Powerful reports to track all financial information, service history, and registration information.

## About Bonsai Logic

Bonsai Logic was founded in 2000 to serve the custom needs of the private and public sector. With over \$1.2 million dollars in sales, we are the experienced, yet local, company to provide you with the tools and vision you need to safely upgrade your infrastructure.

Our private sector roots provide us with an endless drive to improve efficiency, as well as to remain constantly introspective in the interests of product perfection and 100% client satisfaction.

Our speed of growth is trumped only by our dedication to customer service...when your client's best interests are the #1 priority, everyone wins.

Come find out for yourself, and welcome to Bonsai Logic... you'll love it here.

An extremely intuitive interface, designed for simplicity and efficiency.

Don't be fooled by software written years ago that will be obsolete by the time your users are comfortable with it.
