Create, manage, and close out work orders from within RoadTracker.

Lose the paperwork.  
Accessible from any computer with the internet.

### Does your DPW suffer any of the following?

- Inefficient or non-existent software.
- Lack of ability to track road work effectively.
- Difficulty tracking customer complaints.
- Lack of ability to centralize information.
- Endless error-prone paperwork.

### Why Use RoadTracker™?

- ✓ Keep all sensitive DPW info in one location for all parties.
- ✓ No software installation needed-RoadTracker is web-based.
- ✓ Centralize and access real-time data.
- ✓ Generate and print work orders from within the application.
- ✓ Keep stored all routine work order information so you don't have to consistently re-enter the same information.

**Bonsai Logic** was founded in 2000 to serve the custom needs of the private and public sector. With over \$1.2 million dollars in sales, we are the experienced, yet local, company to provide you with the tools and vision you need to safely upgrade your infrastructure.
